

2011 Proven to Win Pig Sale

Sponsored by: SGI & ISU Block and Bridle Club

Health Rules and Regulations

- All swine must be **individually identified** on a Certificate of Veterinary Inspection and originate from herds or areas not under quarantine. Plastic individual tags can be substituted for an official metal test tag, when an additional identification (ear notch) is also recorded on the test chart and Certificate of Veterinary Inspection. All identification is to be recorded on the pseudorabies test chart and the Certificate of Veterinary Inspection.
- The original health certificate must accompany shipment and the three (pink, yellow, white) copies of the original must be supplied for each animal.

NOTE: A separate health paper is required for each animal

- BRUCELLOSIS (Iowa is Class Free):
 - Native Iowa Swine--No brucellosis test required for exhibition purposes.
 - Swine from Out of State--All breeding swine six months of age and older must either:
 - Originate from a Brucellosis Class "Free" state; or
 - Originate from a brucellosis validated herd with herd certification number and date of last test listed on the Certificate of Veterinary Inspection; or
 - Have a negative brucellosis test conducted within 60 days prior to show and confirmed by a state-federal laboratory.
- AUJESZKY'S DISEASE (PSEUDORABIES) - ALL SWINE (Iowa is Stage V)
 - Native Iowa swine. Native Iowa swine originating from a Stage 4 or lower status county must present a test record and Certificate of Veterinary Inspection that indicate that each swine has had a negative test for pseudorabies within 30 days prior to the show (individual show regulations may have more restrictive time restrictions), regardless of the status of the herd, and that lists the individual official identification. Native Iowa swine originating from a Stage 5 status county must present a Certificate of Veterinary Inspection listing individual official identification. No pseudorabies testing requirements prior to the exhibition will be necessary for native Iowa swine originating from Stage 5 counties. Electronic identification will not be considered official identification for exhibition purposes.
 - Swine originating outside Iowa. **All exhibitors must present a test record AND Certificate of Veterinary Inspection** that indicate that each swine has had a negative test for pseudorabies **within 30 days prior to the show** (individual show regulations may have more restrictive time restrictions), regardless of the status of the herd, and that lists the individual official identification. Electronic identification will not be considered official identification for exhibition purposes.
- Swine that return from an exhibition to the home herd or that are moved to a purchaser's herd following an exhibition or consignment sale **must be isolated and retested negative for pseudorabies not less than 30 and not more than 60 days after reaching their destination.** (Code of Iowa 166D.13(2).)
- Address any health regulation and certificate questions to **Tye Lettow-Swine Genetics International** (800) 247-3958 or **Dr. Leuschens-Iowa State University DVM 515.290.7951**
